

August 2020 Newsletter

Let us help you make the most of your membership with this exclusive newsletter highlighting some of our perks, discounts and updates.

Who We Are:

Indiana State REIA is Indiana's only statewide voice for real estate investors legislation. Our mission to keep our members informed as policies change, and be your voice when concerns need to be addressed. We do this while also offering invaluable education, information and collaboration.

What We Do:

As a 501c6, **Indiana State REIA** is a non-profit association where local and regional real estate investors and investment groups can stand together as a centralized, strategic association to champion the issues important to investors across our state. We also create a positive image with the general public and legislators. We are your investment association for flipping single and multi-family homes, commercial properties, rental issues and much more. All Indiana real estate investors can benefit from joining the Indiana State Real Estate Investors Association

New President of the Board of Directors

Elizabeth considers herself a reformed corporate engineer! She began her corporate career with the Ford Motor company, and in 2016 took a leap of faith and quit her job. She spent 6 months traveling the world, and Airbnb'd her condo in Michigan. After having great experiences being a host (she made Superhost at the first assessment) and also as a guest, she decided to build a full service home sharing business.

Elizabeth now resides in Indianapolis, owns and operates several small businesses. She's an established mover and shaker in the real estate investing sector, and we look forward to having her take Indiana State REIA to the next level.

**THANK YOU DONORS!!!
Lawsuit Against Unconstitutional Eviction Ban
has Been Filed!**

Thanks to all of our wonderful donors, we were able to meet our goal and raise the \$15,000 needed for the attorney's retainer fee to file the lawsuit against the unlawful eviction ban imposed by the Governor

This was only possible because of all the donations from our members like YOU and our matching donor that have made it possible for us to fight back against this harmful legislation on behalf of Indiana's housing providers.

However, you are probably aware of **the recent onslaught of anti-small business legislation** that you've heard about in the media since Covid has exploded in the US. And we believe that **this is only the beginning.**

Donations from private individuals and businesses are always welcome, and are used to educate our members, the public, our state legislators and support applicable statewide lawsuits supporting pro-investor legislation.

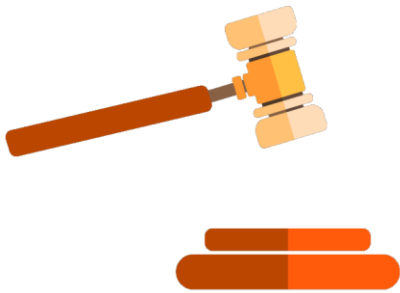

If you want to contribute more, or make your first contribution, there is still plenty of time for you to make an impact! In order for us to maintain the momentum that we've gained and allow us to continue lobbying for **legislation that protects Indiana's housing providers more funds will still be needed.**

INDIANA STATE REIA employs lobbyists on your behalf in all aspects of legislation, from proposing to modifying house bills to proposing favorable laws in order to promote and protect our best interests as real estate investors.

You can make a donation by [clicking here](#) or on the button below. 100% of these funds go to the legislative programs. If you prefer to make a larger donation or make one in person, please call Vickie Perry at 317-670-8491 or Elizabeth Sickels at 317-661-1516.

Other Updates

Eviction bans across the US

Governors from NY to LA, and many states in between, have implemented eviction bans. And many states have begun to fight back.
