

Indiana's **ONLY** state-wide voice for real estate investor legislation.

We only exist because you do.

CONTACT YOUR LEGISLATORS OVERTURN THE EVICTION MORATORIUM

Can you answer YES to any of the following questions?

Are you a real estate investor (or aspiring investor)?

- Note investor, flip houses, own rentals or Airbnbs, and/or are private or hard money lenders?

Do you do ANY kind of business in the real estate sector?

- Property managers, insurance agents, contractors, lenders, pest control, inspectors, realtors....the list goes on.

If YES, then...

YOU NEED TO CONTACT YOUR LEGISLATORS AND TELL THEM TO OVERTURN THE CDC EVICTION MORATORIUM!

Not only is the eviction moratorium incredibly harmful to landlords, it also has **very serious implications for the entire real estate sector** if we don't make our legislators aware of how harmful legislation like this is.

If our legislators think that regulating rental properties in this way is OK, [then what is going to prevent them](#) from passing highly restrictive and harmful regulation in other areas of real estate (fix & flip, Airbnbs, private lending etc)?

Even if you aren't directly impacted by the eviction moratorium, don't get too complacent. **Eviction moratorium today, and who knows what else tomorrow?**

Our [policy makers NEED to hear from us](#) about the negative impact this legislation has on our lives as individual AND on our ability to provide affordable housing to local Hoosiers.

IF WE DON'T BRING THEIR ATTENTION TO THESE ISSUES, THEN HOW ARE THEY SUPPOSED TO BRING THOSE ISSUES INTO CONSIDERATION when deciding on new legislation?
